DETAILED ACTION

Claims 1-108 are currently pending in the instant application. The following action is now taken.

Election/Restrictions

Claims 1 is generic to a plurality of disclosed patentably distinct species comprising for example, the compound of (1) example E-1 page 89, (2) C-2 page 89, (3) J-2 page 90, (4) C-6 page 91, (5) B-6 page 95 (6) K-3 page 98, etc. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of a single disclosed species even though the requirement be traversed. Upon election of a single disclosed species, a generic concept inclusive of the elected species will be identified by the Examiner for examination along with the elected species.

An attempt was made to present this requirement telephonically but did not result in an election being made.

Inventorship

In view of the papers filed 28 February 2002, it has been found that this nonprovisional application, as filed, through error and without deceptive intent, improperly set forth the inventorship, and accordingly, this application has been corrected in compliance with 37 CFR 1.48(a). The inventorship of this application has been changed by the addition of inventor Dario M. Gomez.

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of the file jacket and PTO PALM data to reflect the inventorship as corrected.
